Employability report

# The professional situation of recent graduates from Técnico

Employment situation of 2<sup>nd</sup> cycle graduates who  
completed the course in 2022/23.

[oe.tecnico.ulisboa.pt](https://oe.tecnico.ulisboa.pt)

**“Although my duties are not directly related to what I studied, I can confidently say that Técnico gave me the tools to perform and learn any role”**

Graduate in Industrial Engineering and Management

**“Técnico provides us with solid and capable training for our professional performance, preparing us for the challenges we face on a daily basis, even when at the beginning of our careers our role already entails great responsibility.”**

Graduate in Computer Science and Engineering

## CURRENT SITUATION

# 96,6 %

**of graduates are working**

---

The majority of recent Técnico graduates are employed. This group includes employees (78.3%), grant holders (13.8%), interns in paid internships (2.8%), and self-employed workers (1.7%).

AVERAGE SALARY

**2.401 €**

**Monthly Base Salary**

---

Recent graduates working in Portugal have, on average, a base salary of €1,837. These figures refer to gross remuneration.

**“I feel that my path at Técnico was one of personal growth. I learned a great deal not only about the field of Chemical Engineering but also gained many transversal skills and soft skills. It was a journey marked by many challenges, but overcoming them one by one fills me with pride.”**

Graduate in Chemical Engineering

**“Good professors, stimulating curricular content, and great camaraderie among colleagues.”**

Graduate in Biological Engineering

WAITING TIME TO OBTAIN THE 1<sup>ST</sup> JOB

**86 %**

**obtain their first job within 6 months  
after completing the course**

---

The vast majority of recent graduates achieve professional integration within 6 months after finishing the course.

**“Técnico truly works on building student resilience, putting students to the test and accustoming them to stressful situations while still having to deliver all the projects they are involved in with professionalism and quality. Obviously, these traits are noticeable in the job market. Everyone is satisfied with my rigor, method, and ability to develop work on several fronts simultaneously, and Técnico played a major role in that.”**

Graduate in Mechanical Engineering

**“Companies value the fact that I completed my degree at Técnico.”**

Graduate in Aerospace Engineering

PERMANENT CONTRACT

**70,9 %**

**of employees have an open-ended  
employment contract.  
They are permanent.**

—

## INTERNATIONALIZATION

**25,4 %**

**are working for an employer  
based outside Portugal**

---

Almost all graduates working for foreign employers are relocated; only 3.8% are in Portugal working remotely.

**“Excellent conditions, extracurricular professional opportunities widely available and distributed in a meritocratic way, good professors, many available resources.”**

Graduate in Telecommunications and Informatics Engineering

**“I miss the academic environment and the level of rigor. I grew as a person and as a professional thanks to Técnico.”**

Graduate in Electrical and Computer Engineering

### Methodological note

The surveyed population (N=1324) corresponds to all 2nd cycle graduates who completed the course between January 1 and December 31, 2023 (source: RAIDES). Data collection was carried out via an online questionnaire between March and December 2025.

The response rate was 35.5%.
